

March 2008 Year to Date vs. Previous Year

- U.S. imports of frames and sunglasses broke the trend of the last two years and had a substantial decline from previous year's totals during the first quarter of 2008. However, exports of frames and sunglasses both showed increased activity during the first quarter of 2008.*
- Based on U.S. Department of Commerce data, U.S. frame imports decreased in units but increased in value during the first three months of 2008. The total number of frames imported into the U.S. during Q1 2008 decreased by 6.3% to 20.3 million pairs valued at \$216 million (up 7% from year-ago levels).
- The price of imported frames continued its upward climb during the first quarter of 2008 with average prices of \$10.68 per pair being recorded in Q1 2008, a 14.2% increase from year-ago prices which contributed to the increase in import value.
- U.S. frame exports increased in both units shipped and value through the first quarter of 2008. Frame units exported from the U.S. rose by a staggering 24.3% to 1.7 million pairs. Based on value, U.S. exported frames were worth about \$33.4 million, an increase of 25.2% when compared to year-ago value. The average price for a pair of exported U.S. frames was \$19.61; an increase of 0.8% from the first three months of 2007.
- For the origin of U.S. frame imports, Asia and Western Europe continued to dominate the frame import market during the first quarter of 2008. Asia accounted for 62.7% import value and 87.8% of total units, while Western Europe captured the rest of the import pie with 36.9% of import value and 11.7% of total units.
- Canada and Mexico continued to be the biggest market for U.S. frame exports during the first three months of 2008; they absorbed 49.4% of all U.S. frame unit exports and 59.9% of exported value. U.S. exports of frames increased significantly during the 1st quarter of 2008, with only Africa (-67.3%) and Australia/Oceania (-14.5%), of the major country groups seeing any decreases.
- The U.S. imported 103.7 million pairs of plano sunglasses during Q1 2008--a decline of 33.4% from 2007 imports.* Those 103.7 million pairs were worth \$280.2 million, a decline of 10.2% over year-ago levels. The average price for a pair of U.S. imported sunglasses was \$2.70, an increase of 34.8% from year-ago prices.
- U.S. sunglass exports recovered from last year's decline and showed increased activity during the first three months of 2008. Recent data indicates that U.S. sunglass exports totaled 4.8 million pairs, an 11.5% increase from the same period last year. Export value for sunglasses, was up significantly by 37.5% to \$79 million by the end of the first quarter. The average price for a pair of exported U.S. sunglasses was \$16.45, 23.4% more than last year's average export price.
- Although Asian sunglasses accounted for nearly 100% of all U.S. sunglass unit imports (actual 96.4%) during the first three months of 2008, they only accounted for just over one half of total value (actual 54.9%)--these figures respectively represent a 33.2% and a 7.2% decrease from last year totals. The rest of the imports came from Western Europe, 3.2% in total units but 44.9% in value. Canada and Western Europe remained the largest destination for U.S. sunglass exports, capturing a majority of exported units (62.6%) and exported value (57.5%).

Import Details:

- While non-plastic frames still account for the majority of U.S. frame imports (71.4% of units and 71.8% of value during Q1 2008), growth of plastic frame imports continued to increase while non-plastic frames decreased. Imports of plastic frames rose by 18.8% during Q1 2008 (with value increasing by 26.5% to \$61 million). Non-plastic frame imports declined by 13.6% in units but had a marginal increase of 1.0% in terms of value during the first three months of the year.

***The decline in plano sunglass figures represents a change in the methodology used to report this data by the Census Bureau and the International Trade Administration.**

March 2008 Year to Date vs. Previous Year

- Prices for frame imports were up across the board during the first three months of 2007 with plastic frames currently priced at \$10.51 per pair on average (up 6.5% from year-ago average price levels). The average price for a pair of non-plastic imported frames was \$10.74 (an increase of 16.8% from 2007 price levels).
- China continues to be the leading source of origin for U.S. frame imports, sending over 15 million pairs of frames to the U.S. during the 1st quarter of 2008--a decline of 3% when compared to Q1 2007 shipments. These 15 million pairs of frames were worth approximately \$106.2 million, a 12% increase over the value of Chinese frames shipped to the U.S. during the same time last year.
- China continued to expand the gap with Italy in terms of frames shipped to the U.S. during Q1 2008. China accounted for 49.1% of U.S. frame import dollar value, while Italy accounted for 29.1% (\$62.9 million). When compared to year-ago figures, China has increased its share of the dollar frame pie in the U.S. by 2.3 share points, while Italy has simultaneously seen their share of the U.S. frame import market also increase, but at a slower pace (1.8 share points).
- Among the leading countries in the U.S. frame import market, Luxemburg had the most expensive frames at \$145.17 per pair on average, although this was a decline of 37%. Other countries exporting high-priced frames to the U.S. were Germany (\$55.35 per pair), Austria (\$41.07 per pair) and France (\$32.78 per pair).
- China remained the largest source of U.S. sunglass unit imports during the first three months of the year (90.5 million pairs--down 36% from unit shipments of last year). Taiwan was the second largest origin of sunglasses in terms of units (7.8 million pairs--up 11% from year-ago sunglass unit shipments).*
- Italy and China accounted for the largest share of U.S. sunglass import value (\$122.2 million and \$118.2 million respectively during the first quarter of 2008). When compared to year-ago figures, the value of sunglasses imported from China and Italy both decreased. China declined by 12% while Italy declined by 15%. *

Export Details:

- For the first time since 2004 the U.S. frame export market had an increase in units shipped to go along with a slight increase in average prices. The U.S. exported 719,000 pairs of plastic frames worth \$16.16 per pair during the first three months of the year (generating \$11.6 million in value) and shipped almost 1 million pairs of non-plastic frames worth \$22.13 per pair (generating \$21.8 million in value).
- Canada remains the most common destination market for U.S. frames, seconded by the United Kingdom in terms of units. Over 736K pairs of frames were shipped to Canada during the first quarter of 2008, a 29% increase from the previous year. U.S. frame shipments to the United Kingdom increased by 49% to 113,000 pairs during the same time period. U.S. frame unit exports during Q1 2008 overall had a 24% increase from year-ago levels, with only the Netherlands (-69%), Australia (-19%) and France (-16%) of the top destination countries reporting declines in export activity when compared to last year.
- Based on value, Canada accounted for 56.4% of U.S. frame exports, with export value growing by 49% during the first quarter of 2008. The second most valuable market for U.S. exports so far this year was the United Kingdom, which received \$1.3 million worth of U.S. frame shipments in Q1 2008.
- Thus far in 2008, the U.S. shipped the most expensive frames to Sweden (\$38.78 per pair), Italy (\$30.56 per pair), and the Netherlands (\$29.14 per pair).
- The most significant U.S. frame export price increases in Q1 2008 were to the country groups of the Middle East (38.2%) and North America (11.2%).
- Canada remained the largest market for U.S. sunglass exports with a market share of 44.3% in units (2.1 million pairs) and 25.6% in value (\$20.3 million). After Canada, the largest market for U.S. sunglass exports was Australia (over 144,000 pairs worth \$6.6 million). *
- The most expensive U.S. sunglasses were shipped to Sweden (\$61.41 per pair), Aruba (\$58.70 per pair), Malaysia (\$52.40 per pair), and Hong Kong (\$51.80 per pair). On the other end of the price spectrum, the cheapest sunglasses were shipped to New Caledonia (\$2.30 per pair) and China (\$4.30 per pair) in Q1 2008.*
